EDUCATION

# WE'RE BACK CHAT BRASS

Since 2016, we've been bringing our boisterous, brassy beats to venues around the world.

We're performers at heart, but contrary to popular belief we weren't born belting classics. We had inspiring teachers and access to music in its many forms.

That's why we're passionate about working with burgeoning musicians of any age and ability, especially those who don't normally get to experience live music.

# GET BRASSY WITH US

Start with the brass basics or master more with us.

We work with all ages, wherever you may be. Our different workshops bring teams together and inspire newbies and musos alike with fresh takes on the tracks you love.

# PERFORMANCE+

It's the pitch-perfect introduction to brass instruments.

Our participatory performances have all the same foot-stomping hits from the band but this time we take you through how each instrument works and why they're important for building up our brassy beats.

The highlights:

- Experience a live performance from a professional brass band.
- Learn how trumpets, trombones, saxophones, sousaphones and drums work.
- Test your musicality and conducting skills.
- Sing and dance your way through our engaging workshop for all ages and abilities.

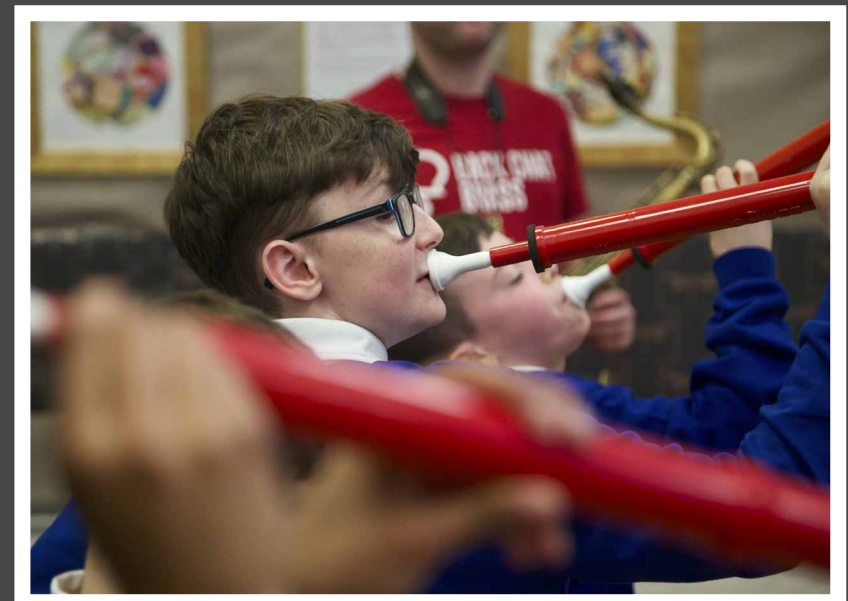

# HANDS-ON BRASS BASICS

All your Back Chat favourites - with you on horns.

It's a big brass taster for groups of up to 30. We'll show you how it's done and then pass the plastic trumpet over to you to learn how to breathe correctly, buzz and get your first sound. Then it's 'altogether now' for your first performance.

The highlights:

- Experience a live performance from a professional brass band.
- Get the whole team involved with an instrument for everyone.
- Learn how to work together effectively to build harmonies.
- Finish on a high note with a group performance.

# ENSEMBLE SKILLS

We're in bands of all shapes and sizes, even earning our stripes as band leaders. So why not learn from the experts?

Bring us in to support your school ensemble, providing specialist support, inspiration and guidance. We'll leave you with a stronger act and advice on how to play better together.

The highlights:

- Trust us with all ages and abilities.
- Professional assessment and recommendations from seasoned experts.
- Hone section playing, improvisation, and performance skills.

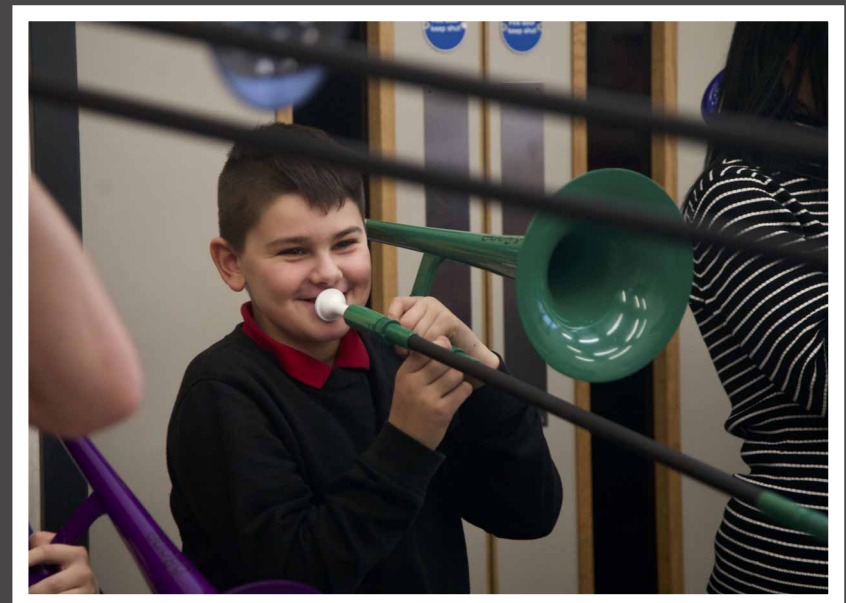

# SPECIALIST SKILLS

Bring in the brass pros to boost grades in composition and arrangement.

It's been well over a decade since we were sat behind a desk and not a drum kit, but we're still in schools week in, week out supporting GCSE and A level classes. The band are trained to work 1-2-1 or in small groups to provide focussed music tuition.

The highlights:

- Get hands-on support with teaching and learning.
- Benefit from our qualifications and links with Leeds Conservatoire.

# SEND

Big brass that specialises in bigger smiles.

Our band works extensively with children and adults with special educational needs and disabilities. We've partnered with leading charities to work in specialist environments with young and vulnerable people. Each workshop is tailored to suit the group so that each participant can access and experience new instruments and exciting sounds.

The highlights:

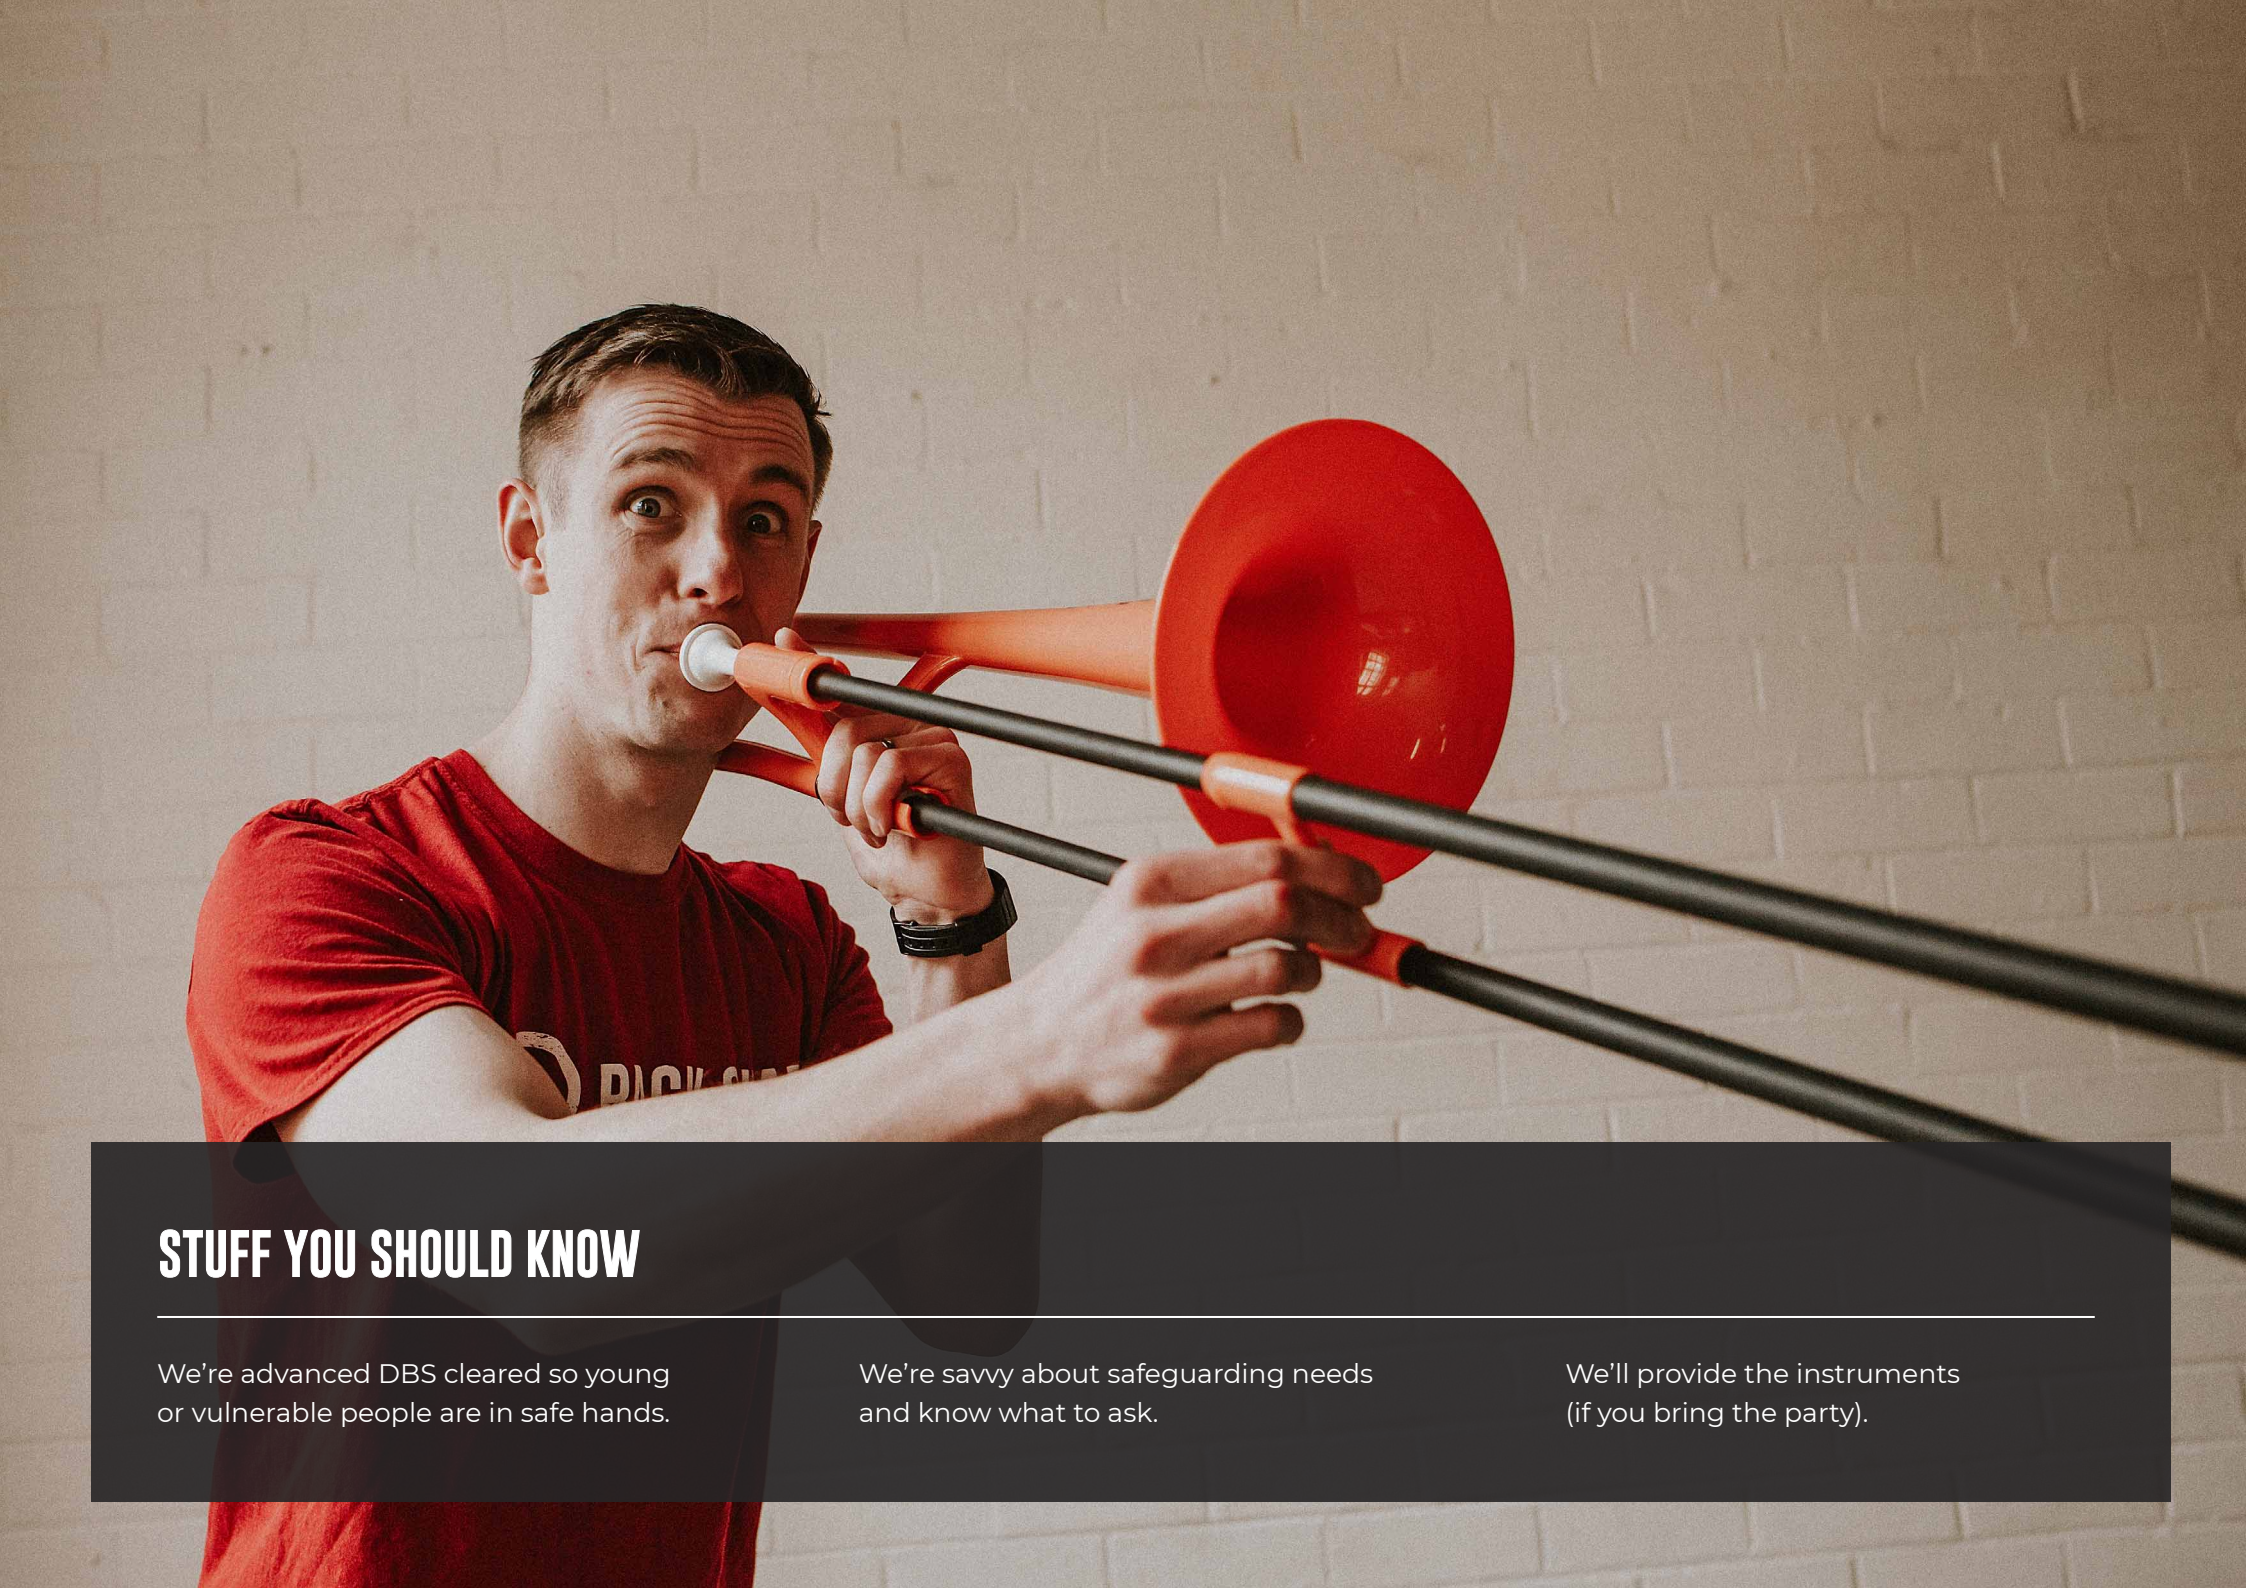

- Get the whole group involved with an instrument for everyone.
- Let our seasoned and sensitive professionals take the lead.
- Trust us to differentiate for all abilities and ages.

# READY TO BOOK?

Make an enquiry and we'll bring the  
brass to you [info@backchatbrass.com](mailto:info@backchatbrass.com)

## STUFF YOU SHOULD KNOW

---

We're advanced DBS cleared so young or vulnerable people are in safe hands.

We're savvy about safeguarding needs and know what to ask.

We'll provide the instruments (if you bring the party).
